Mr. Harold Shipshock  
Master Dry-cleaning, Inc.  
6326 Bluemound Road  
Wauwatosa, WI 53213

Subject: Request for extension of NR 140.28 Infiltration/Injection at for the Master Cleaners, Remediation  
6326 Bluemound Road, Wauwatosa WI 53213, BRRTS #: 0241-545142, FID #: 241398630

Dear Mr Shipshock:

The Wisconsin Department of Natural Resources (WDNR) received your request, for extension of NR 140.28 Exemption injection at the referenced site on June 29, 2020.

WDNR granted a Temporary Injection Exemption Approval for the subject site on November 18, 2015 to pressure inject a solution of 20-25% by weight of Provect-IR Antimethanogenic in-situ chemical reagent (ISCR) into the groundwater at the Master Cleaners Remediation, 6326 Bluemound Road, Wisconsin, WI 53213. The request was submitted by Fehr Graham Engineering & Environmental (Fehr Graham). Fehr Graham proposes to inject an antimethanogenic ISCR which is an emulsified zero valent iron (EZVI). A WPDES permit, WI-0046566-07-0 was re-issued on 06/29/2018 with an expiration date of June 30, 2023.

The Infiltration/Injection 2015 consisted of 24 soil borings. Each soil boring received 100 to 150 gallons of solution. The 2020 infiltration injection will consist of 10 soil injection borings and each boring will receive approximately 70 gallons of solution.

WDNR hereby grants an infiltration Injection extension of the exemption until November 18, 2020 to the original Temporary Exemption approval under the same conditions of approval date of November 18, 2015 and WPDES General Permit re-issued 06/29/2018 to expire, June 30, 2023.

If you have any questions concerning this extension approval, please contact me at 414-263-8607 or at my cell phone (262) 424-4175 or by e-mail at [Binyoti.Amungwafor@wisconsin.gov](mailto:Binyoti.Amungwafor@wisconsin.gov)

Sincerely,

Binyoti F. Amungwafor
