Gina:

The last of the eight rounds of groundwater sampling will be completed in July 2018. Should be able to get you the report by the end of the month.

Concentrations are still high may need to continue groundwater monitoring. We will see after July results.

Did you ever find any information on the additional monitoring wells we found that are near the Wolf property? (03-10-545213 & 09-10-545213)

Thanks

mn

Mike,

Just checking in on Dairy Concepts. Would you please provide me with an update?

Thanks.

We are committed to service excellence.
