Mike,

I was reviewing this site and I think an assessment of the LNAPL at this site is warranted. It appears to me that this is weather product that is presenting as free product due to being trapped in the soil fines and then releasing into filter pack of the monitoring well. Therefore, in addition to the continued groundwater sampling, would you submit a proposal to complete this assessment at the site and alter the U&C and submit for approval as appropriate?

The guidance to performing an LNAPL assessment can be found here:

<https://dnr.wi.gov/files/PDF/pubs/rr/RR787.pdf>

Email and/or call so we can discuss. I am out of the office until Monday.

Thanks.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Gina:

We are requesting a Bid Deferral for one year of groundwater monitoring with some free product removal.

If you have any questions give me a call.

Thanks

mn
