Re: Former Express Cleaners; 3941 North Main Street, Racine, Wisconsin;  
BRRTS # 02-52-547631

Dear Secretary Stepp:

I am pleased to report significant progress on attempts to clean up an old dry cleaning site, about which I previously corresponded. The contentious issues that previously blocked the path forward were discussed among and with your staff, and then resolved to allow this positive result. Your Department worked conscientiously with me and my consultant to carefully consider, modify and ultimately approve a proposed cleanup. That proposal is now being implemented. The protective cap has been removed and active cleanup will be performed November 1 through 7, 2016. Upon seeing the recent disturbance to the site, one hopeful area business and an unrelated area citizen have both expressed their appreciation of the possibility that the neighborhood eyesore may once again host a beneficial businesses or otherwise dignify the neighborhood.

Sincerely,

William P. Scott
