**Subject:** 109 East Main Street Vapor Sampling - Week of February 1st 2021

Hello Ms. Carrie Olson,

Westwood Professional Services (Westwood) was contracted by the Wisconsin Department of Natural Resources (WDNR) to conduct vapor sampling at 109 East Main Street, Gillett, WI. The WDNR would like to screen the business for vapor migration from Chlorinated Volatile Organic Compounds located in the soil and groundwater, associated with the former Econo Wash contamination site (WDNR BRRTS #02-43-547861) located near your property.

This email is to inform you that Westwood staff are planning on conducting vapor sampling the week of February 1<sup>st</sup> 2021. Westwood staff will reach out via email one week prior to confirm a sampling day. The sampling day will be weather dependent and is subject to change. An email will be sent if weather conditions do not allow for the original sampling date and a new date will be selected. If this timeframe does not work for you, please contact me. I'm coordinating the sampling day among four properties in the area.

If you have any questions please feel free to send me an email and/or call.

Thanks,

### Quin Lenz
