SUBJECT: Transfer of Project Management to Department of Commerce
City of Princeton; 417 W Main St; Princeton; Wisconsin
WDNR BRRTS ID #: 03-24-547974

Dear Mr. Rath:

The State of Wisconsin divides the jurisdiction for sites contaminated by petroleum storage tank systems between the Wisconsin Department of Natural Resources (WDNR) and the Department of Commerce (Commerce), based on statutory definitions of high, medium and low risk sites. Under this statute, oversight of sites falling under the definition of "low or medium risk" is the responsibility of Commerce rather than the WDNR.

Per the correspondence submitted on January 12, 2007 by Matt Hilse of STS Consultants, this site falls under the definition of "low or medium risk". As such, staff at Commerce will provide further reviews of submittals and all technical assistance related to this case. Accordingly, WDNR will transfer the above referenced file to Commerce at the following address:

Wisconsin Department of Commerce
ATTN: Tom Verstegen
2129 Jackson Street
Oshkosh, WI 54901-1805
(920) 424-0025
FAX: (920) 424-0217

If you have questions or concerns regarding this site, or would like to review any of the pertinent file documents, you should direct them to the Commerce contact person listed above.

Sincerely,

Denise D. Danelski
Program Assistant
Bureau for Remediation and Redevelopment
