RE: **Request for Site Update**

Commerce # 54968-9144-37-A **WDNR BRRTS # 03-24-524420**
Princeton City Water St Property, 637 W Water St, Princeton

(2) Underground Storage Tanks

Dear Mr. Rath:

The Wisconsin Department of Commerce (Commerce) is requesting information regarding activities associated with petroleum contamination at the site referenced above. According to information in the case file, petroleum contamination was reported at the site on April 12, 2004. On March 28, 2006 STS Consultants, on your behalf, requested that the site be transferred to Commerce for regulatory oversight leading to closure. As of this date, we have not had any additional correspondence from the City of Princeton or your consultant.

Commerce requests that you submit any more recent information and provide a plan to fulfill your responsibility to address any petroleum contamination. Under current regulations, many sites require little or no cleanup actions after adequate characterization and risk assessment are performed.

Within 30 days, please inform Commerce in writing of your intentions to bring this case to closure.

Your prompt attention to this request is appreciated. If you have any questions, please contact me in writing at the letterhead address or by telephone at (920) 424-0025.

Sincerely,

A handwritten signature in black ink, appearing to read "Tom Versteegen". The signature is written in a cursive, flowing style.

Tom Versteegen
