Dear Mr. Schoeman:

The Wisconsin Department of Commerce (Commerce) is requesting information regarding activities associated with petroleum contamination at the site referenced above. I had contacted the City of Princeton last year and was promised an update. I have received nothing to date.

Commerce requests that you submit any more recent information and provide a plan to fulfill your responsibility to address the petroleum contamination. Under current regulations, many sites require little or no cleanup actions after adequate characterization and risk assessment are performed.

Within 30 days, please inform Commerce in writing of your intentions to bring this case to closure. Be aware that periods of inactivity and non-compliance can affect PECFA eligibility (if applicable) and, specifically, interest on your PECFA loan may not be eligible for reimbursement. In addition, Commerce can pursue enforcement actions if you do not respond to this request for information.

Your prompt attention to this request is appreciated. If you have any questions, please contact me in writing at the letterhead address or by telephone at (920) 424-0025.

Sincerely,

A handwritten signature in black ink that reads "Tom Verstegen". The signature is written in a cursive style with a large, prominent "T" and "V".
