Subject: Former Bocaner Property - Update Cover Maintenance Plan

Mr. Fabel,

The Department of Natural Resources has received the modified maintenance plan for the Former Bocaner Property located at 224 South 4th Steet, Wausau. The Department understands that portions of the vegetative cover were replaced with gravel, concrete, or asphalt- all equally protective of direct contact exposure to residual soil contamination at the site. Please continue to perform annual inspections and complete Form 4400-305, Continuing Obligations Inspection and Maintenance Log. Please contact me with questions regarding this site or Department requirements at closed cleanup sites.

Thank you,
Matt

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
