Dear Ms. Judge and Ms. Littleton:

Your proposed change order is approved. You may proceed with the proposed work. The DNR received the proposal titled Proposal for Groundwater Sampling by MSA Professional Services submitted on your behalf on October 14, 2019.

A full round of groundwater sampling from all existing wells, except MW-3 at the former Hanger's Cleaners property, to determine current site conditions will be performed under this approval. A brief status report will be provided to the Department upon completion of this scope. The report will include information about well condition issues as well.

Cost approved for this change order is \$4,310.00 for consulting and \$1,710.00 for sub-contractors, for a total of \$6,016.00.

MSA Professional Services has also requested an approval to increase consultant rates at these sites. The department approves the rate increase per Wis. Adm. Code Ch. NR 169.29.

Please be aware that you are required to comply with all applicable statutes and administrative rules including the NR 700 series, Wisconsin Administrative Code, hazardous waste management and wastewater discharges.

This approval does not guarantee the reimbursement of costs under the Dry Cleaner Environmental Response Program. Final determination regarding the eligibility of costs for reimbursement will be made at the time of claim review.
