SUBJECT: Review of Change Order Request for
Imartinizing Dry Cleaners
1730 State Street, Racine, WI
WDNR BRRTS #02-52-549890 FID#252251010

Dear Mr. Berry:

Your proposed Change Order #1 is approved. You may proceed with the proposed work. The DNR received the proposal titled Supplemental Site Investigation Services prepared by Giles Engineering Associates, Inc. and submitted on your behalf on April 22, 2010, May 7, 2010 and final cost list on June 4, 2010.

The Supplemental Site Investigation proposed to install 5 additional soil borings near MW-2 and install 2 additional monitoring wells to further define the extent of the groundwater plume.

Please be aware that you are required to comply with all applicable statutes and administrative rules including the NR 700 series, Wisconsin Administrative Code, hazardous waste management and wastewater discharges.

Cost approved for this submittal is \$13,375. The cost approved for the first round of site investigation activities was \$15,835. The total cost approved to date for this site is \$29,210.

On future cost submittals please make sure the all task list are broken down the same way. Example being, don't put MW install and development on one and the next one have HAS/MW installation as one line with MW development another line.

Please be aware that you are required to comply with all applicable statutes and administrative rules including the NR 700 series, Wisconsin Administrative Code, hazardous waste management and wastewater discharges.

This approval does not guarantee the reimbursement of costs under the Dry Cleaner Environmental Response Program. Final determination regarding the eligibility of costs for reimbursement will be made at the time of claim review.

If you have any questions regarding the content of this letter, please call me at 262-884-2341.

Sincerely,

Shanna L. Laube-Anderson
Hydrogeologist
