Hi John,

I'm out this week, but I'll make you a copy of the latest report we did when I return.

Hi Amanda. I am expecting a 2-year groundwater monitoring report in August. Until then I won't have any new data to share with you.

B.J, can you give me an update on the status of the report?

Good afternoon!

I am with the Groundwater Section at DNR's central office, and we are reviewing Special Casing Areas to see if they can be reduced or eliminated. We have found an area, Area 28: Lime Kiln Landfill & Quarry, where you are listed as the

Project Manager. When possible, please scan and send over the latest monitoring well data and/or private water supply well data so that we can evaluate it and place it in the updated file.

I will call at the end of next week to follow up. If you have any questions, please let me know.

Best,
Amanda Ripperger
