Hi Marita:

The DNR received your compliance assistance request on April 14, 2020. After review, the DNR concurs with the alternative schedule to Wis. Admin. Code § NR 716.11(2g) as a result of the COVID-19 pandemic. The DNR understands that the second quarterly sampling event is planned for May 2020 at residential properties using exterior spigots that are operational after being turned off for the winter season. This includes well PW1716LR located at the Watts Residence at 1716 Lakeview Road. When Executive Order #72, Emergency Order #28 (Safer at Home Order) and COVID-19 safe distancing restrictions are lifted, the DNR expects the sampling activities to return to the original sampling plan.

Thank you.

**We are committed to service excellence.**

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
