Joseph,

Stantec has been trying to obtain access to homeowners near the site to conduct indoor air monitoring. The COVID-19 pandemic has delayed that process. My understanding is that John Hnat, the former WDNR PM for this site, has retired. He had offered to reach out to landowners that have been unresponsive. I do not believe he ever did that. The email exchange between him and Stantec is attached.

Since COVID-19 hit, we have not followed up with homeowners as Stantec leadership is generally not allowing its employees to enter private homes while COVID-19 remains a health threat.

Let us know if you have any questions, but in the meantime, the RP/Stantec will not be attempting to conduct indoor air monitoring until the pandemic threat eases.

Thanks.

Chris Hatfield, PG
