Subject: RE: Rusch equip

Thanks John - Steve Rusch signed a contract with us and the sampling will be completed this week. Based on what he sent me, it appears he has disposal documentation for the oil impacted snow and debris.

Subject: Rusch equip

Hi John - Steve Rusch from Rusch equipment called this morning about taking a sample where the oil leaked out the door during the fire. Just to verify what he told me - you are just looking for one sample, down 2 feet? Steve said it was bar and chain oil, so is DRO/PAH good enough? Do we need metals? Thanks for your input
