Subject: Workplan and Cost Estimate for Care'n Cleaners
735 West Main Street, Waupun, WI
DNR BRRTS Activity # 02-14-552053

Dear Mr. Lemmenes:

On August 5, 2019, the Wisconsin Department of Natural Resources (department) received Stantec's "Workplan and Cost Estimate...", which included a request for a variance to NR 169, Wis. Adm. Code, known as the Dry Cleaner Environmental Response Fund (DERF) program.

The variance request and workplan include additional DERF-eligible costs for installation of a sub-slab depressurization system, further evaluation of the mass of contamination, and one additional round of groundwater monitoring. The change order and request for variance are approved. The workplan is approved.

The additional approved costs are \$16,683, which includes \$8,023 in consulting costs and \$8,660 in subcontractor costs. The total approved costs for the project were not included in the request and are not calculated.

Please note that this variance does not assure that all costs submitted for reimbursement by DERF will be approved. All incurred costs are subject to the eligibility requirements listed under s. NR 169.13(2), Eligible Costs, and will be reviewed for compliance. All other requirements for investigation and remediation of the release as well as DERF requirements also apply. This variance approval will be filed and reviewed with any future DERF reimbursement requests.

If you have questions, please contact me.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jeff Ackerman'. The signature is fluid and cursive, written over a white background.
