Scott,

DNR has reviewed the PFAS scoping statement provided with your response, and PFAS sampling is not required at this time based on the information provided. I will be in touch regarding the rest of the responses to DNR comments outlined in the RADR approval letter later this week.

Thanks,  
Josie

Hi Scott,

I will review this response within the next week or two, and get back to you with a response. In the meantime, I may reach out with questions.

Thanks,  
Josie

Josie,

Attached is our response to your RADR review. Was not sure if this type of document needed to be uploaded through the portal. If so, let me know and we can do that. The work plan will follow soon after we receive your response to this letter so that we can efficiently address everything that is necessary.

Please let me know if you have any questions.

Good Morning Scott,

Thank you for this update, I was actually planning to email you today so you beat me to it. I can provide a 60-day extension to the workplan and PFAS scoping to be submitted; please provide an update with workplan and scoping by June 10, 2022.

Thank you,  
Josie

Josie,

Wanted to give you an update on this. We are preparing a response to your RADR letter; however, Mark Woppert has had an ongoing family emergency and so he has not been able to obtain some additional information, particularly in regards to the PFAS questions you raised. We will be submitting the response as soon as he is able to obtain the information. We will submit a work plan for the additional vapor intrusion work after we come to agreement on the RADR. Everyone agrees that we want to advance this project as quickly as possible.

Mark & Chris,

Attached to this email is DNR's conditional approval of the remedial action documentation report submitted for the injection. Please read the letter carefully and reach out if you have any questions.

Thank you,  
Josie
