Subject: USEPA Assistance for Vapor Sampling at Dry Cleaners Etc, BRRS #02-69-552218

Paul,

DNR recently made a request to the United States Environmental Protection Agency (USEPA) for assistance in continuing the site investigation at the Dry Cleaners Etc site. USEPA approved that request; they will be working to sample buildings throughout the neighborhood for vapor intrusion, and install mitigation systems where necessary. The first step in the process is contacting all the various property owners to request access for the sampling, which I am told those requests will be sent out in the coming weeks. Andrew Kleist from USEPA, copied on this email, is leading this work. Reach out with any questions you may have for me or Andrew. Thank you,

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
