**Subject:** Tidy Cleaners & Laundry 02-05-552220 - PFAS Scoping Statement

Hi Dillon,

As mentioned during our phone conversation last week, DNR has revisited the requirement for PFAS sampling at the Tidy Cleaners & Laundry site.

In lieu of the 2019 decision to require PFAS sampling, the DNR is requesting that a stand-alone PFAS scoping statement be submitted that conforms with our current process (includes discussion of site history, operations, chemical use, waterproofing, etc.); most of this can be pulled from information already collected.

Please submit this statement with the SIWP that is to be submitted by September 6, 2021, and feel free to reach out if you have any questions. Once received, DNR will review this information and let you know if the site still screens in for sampling.

Thanks,  
Josie
