Hi Dillon,

As mentioned during our phone conversation a couple weeks ago, the PFAS scoping statement that was submitted with the SIWP was adequate, and PFAS sampling is not required at this time.

Thank you,  
Josie

Concur with no EC sampling at this time.

- DC only, no waterproofing operations
- not commercial facility
- Statical and Injectable Sizing used at most DC facilities reviewed.

Hi Kevin,

Tidy Cleaners submitted a PFAS Scoping statement with their supplemental SIWP. It can be found on pages 7-8 of the PDF, and email from the GB fire department is on page 24:

[\\central\efiles\Staging\NER\Brown\\_05\0205552220\\_TIDY\\_CLEANERS\\_AND\\_LAUNDRY\20210823\\_35\\_SI\\_WP.pdf](\\central\efiles\Staging\NER\Brown_05\0205552220_TIDY_CLEANERS_AND_LAUNDRY\20210823_35_SI_WP.pdf)

I'm unfamiliar with Staticol and Injectable Sizing, so I'm unsure if these stick out to you, but based on no fires occurring here and no history of waterproofing, my opinion is that no PFAS sampling is required. Please let me know if you concur.

Thanks,  
Josie
