Subject: Request for Technical Meeting - Former Koppers Tar Plant and Wabash Alloys Site; 9100 South 5th Avenue, Oak Creek, WI. BRRTS #: 02-41-553761

Hi Mike and Julie,

The VPLE Committee (Committee) met today to review the submitted AOC area figures and associated tables in order to make a determination of phase II completeness at the subject VPLE property. Based on the review, the Committee thought it would be more productive to meet in person with you the consultants, **only**, to discuss some issues, instead of responding to your submittal with a letter. You may also bring to the meeting any technical staff (if applicable), that has been helping you to put the site information together.

The Committee would like to discuss the site, AOC by AOC with soil data maps at hand and iso-concentration maps and an idea for remediation at all the AOC areas. The Committee would also like to know from you; (AOC by AOC) if sufficient and appropriate sampling have been completed at each AOC area and whether each AOC area is a source or not and why.

Below is our availability for the proposed meeting:

Monday, 6/16/14: 1:00 p.m. - 3:00 p.m.,

Monday; 6/23/14: 9:00 a.m. - 12:00 p.m. or 1:00 p.m. - 3:00 p.m.,

Thursday; 6/26/14: 9:00 a.m. - 11:00 a.m.,

Monday; 6/30/14: 9:00 a.m. - 12:00 p.m. or 1:00 p.m. - 3:00 p.m.

Please let us know of your availability and also if you have questions. Thanks.
