Subject: Beazer Oak Creek - Request for Putting Work Plan Submittal Date on Hold

Eric,

Per our conference call today, Beazer is requesting that a hold be placed on the July 5, 2020 submittal date for the interim remedial action work plan requested in your letter of May 5, 2020. The hold is to allow the WDNR more time to review the revised figures Beazer submitted on June 11, 2020. We understand a new timeline will be established after we reconvene at a future date to discuss the path forward. Please reply with your concurrence.

Mike
