Hi Mike (Noel):

DNR directed Beazer to submit two separate submittals for the RAOR and Interim Action Work Plan in our correspondence dated October 19, 2021. "All submittals are to be accompanied by the appropriate review fee." Therefore, two separate fees are required.

DNR reiterates the direction that due to this site being in enforcement, all technical submittals are to be accompanied by Wis. Adm. Code ch. NR 749 fee according to Wis. Adm. Code § NR 728.06. If you utilize a courier service for payment delivery, it would be appropriate to add either myself or Jennifer Dorman as copied parties for email notifications to prevent this from occurring again.

Thanks.

Eric

According to the attached under the section titled "Combined Submittals", requests that involve multiple documents and/or assistance, but only one DNR response, may be processed for one fee. The Interim Action is linked to the Remedial Action and was therefore considered a combined submittal. This is also consistent with past DNR responses regarding the Interim Action Work Plan and Remedial Action Options Report which have been combined.

Please let me know if the DNR believes this does not qualify as a combined submittal and we will submit the additional review fee.
