Hello Dee, please find attached a copy of the cost approval request to complete a case closure submittal and abandonment of the remaining monitoring wells at the Kautzer investigation. Wells PZ1 and PZ2 will need to be grouted (have greater than 30' water column in them). The off-site notifications are specific to the Town (right of ways for both Mann and Pelsdorf) and the Duane Hubing residence. Please let REI know if you have any questions or concerns.

Thank you,

Dave,

I have looked at the Update Report dated February 11, 2020 for the Kautzer Property, BRRTS # 03-10-554767. Looks like the groundwater has been defined with MW1 and MW2 decreasing in trend. You may prepare a closure request and submit the U&C request for this.

If you have any questions, feel free to ask.

Thank you.
