Thank you Andrew for the update on this site.

Fond du Lac County will follow up with the actions outlined below to hopefully receive a NFA determination.

Terry Dietzel has replaced Sam Tobias as Planning & Parks Director. For the last almost 28 years Terry has worked first for Sam Tobias and then with Sam Tobias. Terry has worked on many issues with the DNR in the past, although Sam often took the lead.

Terry is on vacation until August 3rd.
I will be discussing this issue with Terry and he will reach out to you.

Terry's e-mail is: terry.dietzel@fdlco.wi.gov
His phone number is: 920-929-3137.

Have a great weekend.

Allen Buechel
County Executive

Hello Allen,

It looks like Phase 4 activities have been completed at the site with low level contamination (below RCLs) remaining in soil. Provided the conditions under NR 708.09(2) do not apply, I agree the site should be considered for a No Further Action (NFA) determination. Fond du Lac County will need to submit a formal request under NR 708.09 with the applicable \$350.00 fee for the site to be reviewed for a closure under NR 708.09. Follow the link to the appropriate form, [4400-237](#). Once completed, submit the form and applicable fee along with the supporting final documentation as outlined in NR 708.09(1). At that time, WDNR can review the request for a NFA determination.

Please let me know if you have further questions.

Thanks,
Andy James

Hi Ben,
Thank you for the update. The results look favorable. I will await the final report.

Thanks,
Andy James

Hello,

Dan and I just wanted to give you a quick update on the overexcavation and confirmation sampling work that took place in May at the former Tynan property while the final report is being processed. I've attached the working copies of the analytical results summary table which shows that no NR 720 RCLs were exceeded after the soil excavation was completed. Site figures are also attached for reference. Both excavation areas were 10' x 10' with historic borings B-3 and B-5 in the center. Please let Dan or myself know if you have any questions. The report will be sent out soon.

Thanks,
Ben

Hi Allen,
I hope you are well. I am writing to let you know that I will be the new WDNR Project Manager for this site. Please direct future submittals to my attention. I had worked with Sam Tobias in the past so I do have some familiarity with this site. I understand we are waiting for the construction of STH 23 to begin in this area. I am to understand construction will hopefully take place this year but may not start until 2021. I will be in contact with WisDOT as to the construction schedule but in the meantime if you have any questions or concerns, please let me know how I can help.

Thank you,

Andy James
