Subject: Marinette Marine - #10 Bldg Expansion Closure (BRRTS #02-38-555082)

Andrea,

I am finishing up the closure packet review and there are a couple modifications that need to be made before it can proceed:

- The western portion of the building/asphalt needs to have a cover maintenance plan for the area with industrial and non-industrial direct contact exceedances in the soil.
- Figure B.2.a: modify to show the soil plume extending the edge of the river. We don't have soil data indicating the end of the plume so just assume it goes all the way to the river.

If you have any questions, please let me know.

Thanks,
Dave
