Luke,

Glad to hear about the progress at the site. Please consider this approval for the imported 1 1/2" clear stone being imported to the site. You should notify the City of Menasha and Key environmental about your progress so they can determine if a case closure request can be submitted at this time. Have a nice Thanksgiving.

Kevin

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Hi Kevin, I wanted to inform you that all concrete slabs as well as asphalt on site has been completed. I believe the location now fits the criteria of being or qualifying as "capped". Please let me know the next step necessary to complete the VPLE. I also wanted to get you the information on the landscape stone that will be put around the perimeter of our 867 Valley Road location(is located below email). Looking forward to a positive finality on this endeavor.

Re: Multi Storage, LLC

Dave,

The 1 1/2" clear stone that we will be installing at the site will be virgin base course. The material is produced by Michels Materials at their Ben Carrie Quarry located at 111 CTH CB in the Town of Neenah.

Sincerely,
Calnin & Goss, Inc.
