Subject: Status Update Request for Additional Site Investigation for Jagemann Plating Co Inc case, BRRTS # 02-36-555544

Hi Kevin,

Just looking for a quick update on the above referenced case. When we last talked in October 2015, the RP was evaluating options for vapor mitigation system (VMS) installation. Once the VMS was installed and ran for a sufficient amount of time, air sampling and additional site investigation activities would continue. This was indicated in the February 2016 semi-annual report. How is the additional site investigation progressing? Please let me know when you get a chance.

Thanks,

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
