Tauren,

The new wells and piezometers for Jagemann Plating Co. were installed in November 2016, and were sampled on December 30, 2016. I will have a brief update letter drafted by the end of next week with the results of the additional SI. Thanks and have a great weekend.

Hi Kevin,

Based on the NR700 Semi-Annual Reporting received 1/31/17, field sampling/monitoring has been conducted at the site. Have the additional monitoring wells and piezometers been installed and sampled then? The last submittal I have for this site is back in August 2016 regarding the request for permission to install the wells at the off-site property to the south. Please provide an update when you get a chance.

Thanks,

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
