Subject: Remedial Action Design Report Response for Jagemann Plating Co Inc, BRRTS # 02-36-555544

Hi Rob,

The work described for the full-scale remedial injection in the Remedial Design Report submitted on November 10, 2022, is consistent with the injection request and WPDES permit application previously approved by the DNR on June 13, 2022. Therefore, the full-scale injection is covered under the existing injection approval and WPDES permit approval.

Have a nice weekend,

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
