**Subject:** Additional Soil and Groundwater Investigation Results Response for Jagemann Plating Co Inc, BRRTS # 02-36-555544

Hi Rob,

Based on the soil and groundwater sampling results data transmittal received on October 25, 2022 from Robert E. Lee & Associates, Inc., more site investigation work will be needed. In addition to the monitoring already proposed for VOCs as part of the full scale injection and groundwater monitoring outlined in the Remedial Design Report submitted on November 10, 2022, PFAS monitoring should also continue to be completed.

If you have any questions, please let me know.

Regards,
