Subject: Notice to Proceed & Approval: Variance to s. NR 141.07, WAC for Ahlgrimm Explosives Co Inc - Prill Area, BRRTS #02-45-558037

Scott,

This is your notice to proceed with the work proposed in the *Supplemental NR 716 Site Investigation Work Plan* for BRRTS #02-45-558037, received 12/14/17, including installation of an off-site monitoring well in fractured bedrock.

In May 2015, the DNR Drinking & Groundwater Program reviewed the initial proposal for alternative construction of monitoring wells at this site. An approval was emailed on May 5, 2015. This e-mail also serves as approval for the requested variance to s. NR 141.07, Wis. Adm. Code to allow use of 1" diameter PVC pipe where the contaminant of concern is nitrates and the screen will be placed in fractured bedrock.

Please call or e-mail with any further questions.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
