Footnotes (DNR Use Only; Instructions for completing this form that are unique for your facility may be displayed here.)

General Remarks

Permanganate: Absent (Parameter visually monitored by MKC for neutralization and photo documentation can be provided upon request).

No TSS sample was collected during the month of August as no cleaning of the GETS was completed.

The GETs shutdown periodically between August 14 and August 25, 2020 due to a chemical fault for the peroxide metering pump. The pump was repaired and the system was restarted.

Laboratory Quality Control Comments
