Matt,

I have reviewed the Phillips Plating Site Investigation Work Plan dated August 19, 2024. This email serves as your notice to proceed with the scope of work. However, please address/consider the following comments:

- In future submittals please include information on the utilities as requested in the April 22, 2024 Department letter to Phillips Plating.
- If it appears groundwater sampling will continue for an extended period of time(non-stable/increasing trends), the Department recommends bi-annual sampling of all wells.

Let me know if you have any questions.

Thanks,

Phil
