Thanks for calling originally Chris. I just talked to our experts a moment ago and they said indoor air testing is needed in the building unless the new building use will be a dry cleaner (that uses PCE) or a nail salon. I also emailed Nicole and asked her to send me the pressure test data, and told her that a maintenance plan for inspecting the system is required at this time.

You would want to remove any building material that may be contaminated with solvents prior to the testing, and have the normal HVAC system running. Make sure the floor cracks are sealed too.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

John
Good to talk with you today. As we discussed Mr. Kuehl passed on April 10, 2015
Thank you for getting back to me on the need for additional indoor air sampling before the Kuehl Estate can occupy the property.

Sincerely,

Christopher G. Sitzmann
