Nicole – DNR peer review thought your groundwater investigation plan, August 2016, looks good. Please proceed. The comments from our review are as follows:

- Submit well construction forms for the Moraine wells. We are not approving your screen intervals without this information.
- As you know, a vapor intrusion analysis of surrounding receptors will be required after you get the new wells in.
- Submit the testing results for the sub-slab samples in the adjacent building (I can check my email archive for it if you prefer to wait).

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Good Morning John,

Thank you for your response to my questions. Based on this, when do you plan to provide us with your response to the workplan?

Thank you,
Nicole

Hi John,

I need to provide a response to our client, so I just have a few questions....

gas flow expected to west
