Importance: High

Bob,

I've reviewed the March 1, 2017 *Work Plan for Additional Site Investigation* and the July 17, 2017 *Work Plan Addendum for Additional Site Investigation* for the above-named site. This is your notice to proceed with the proposed investigation. Please proceed with scheduling the roto-sonic drilling.

A detailed written response to the August 31, 2016 *Initial Site Investigation Report (SIR)* and both work plans is expected to be completed by the end of this week in response to the SIR review fee paid on February 3, 2017. Let me know if you have any questions.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
