Subject: Emerging Contaminant Sampling Not Requested for FV Steel and Wire Company (Former), BRRTS #02-45-560221

Gary,

Yes I received those two attachments, thank you for submitting them. I apologize for the delayed response, a Superfund site has been consuming a lot of my time recently. The emerging contaminant scoping statement has been reviewed by DNR, and sampling for emerging contaminants is not requested.

I also reviewed the letter about being unable to gain off-site access for installation of the monitoring well. I will be sending out my own access request letter to the property owner and depending on those results we can re-evaluate if the monitoring well location needs to be moved elsewhere. Reach out with any questions. Thank you,

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Hi – I wanted to follow up to make sure you received the two attachments I sent over last month. Also, I wanted to let you know that we received the 1st quarter 2022 data and will be loading it shortly.

Regards,
Gary

Good Evening –

Please find attached two correspondences for the above referenced site regarding off-site access and emerging contaminants.

(Sorry for the late email, but I some technical issues earlier today)

If you have any questions, please let me know.

Regards,

Gary
