Good Afternoon Raghu,

Thank you for the site status update, it is much appreciated. As for submitting the NR700 semi-annual reporting, the link for the notification can be found here: [WDNR EM/RR NR700 Reporting \(wi.gov\)](https://dnr.wisconsin.gov/RR/NR700/Reporting). You will need to enter the BRRTS #, your name, number and email. A link will be sent to you to update the reporting once you fill out your information.

For submitting reports, please use this link (<https://dnr.wisconsin.gov/topic/Brownfields/Submittal.html>) with your username and password. Please let me know if you have any other questions. I will keep an eye out for the report.

I am sorry to hear about your accident, I hope you are recovering quickly.

Thank you,

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Good Morning Zach:

The groundwater sample was completed in April 2023.

I was planning to report the lab report through NR700 semiannual reporting. I did not receive the notification. July 30 is the last day. If you send me the notification, I can send the lab report and groundwater summary table.

The City of Wauwatosa is installing a new sewer and water line in the ROW of North Avenue. There is no contamination in the ROW. Therefore, it appears that the WDOT did not notify the contamination.

If you send me the NR 700 annual web reporting page, I can send the lab report and table.

I believe that the site investigation is complete. However, it is not complete until the field data are approved by the WDNR.

I got the auto cad survey map last week. I do not have an auto cad. I use Claris Cad. I will draw the map and send you a status report "Request to Determination of Environmental Investigation" and a technical fee of \$700.00 in accordance with the Wisconsin Statute ch. 292.55 (1) (d) (3).

A few months ago I was hit by an UHaul truck at the intersection of Bluemound Road and Highway 100. Therefore, my activity is slow.

Thank you for your cooperation.

Sincerely,

Raghu B. Singh, Ph. D.

Good Morning Zach:

The site has been surveyed and one round of groundwater also has been collected.

I will prepare a status report.

Thank you.

Sincerely,
