RE: WDNR Form 4400-237

RR Program Assistant:

The City of New Holstein is in the process of acquiring title to the former Heus Mfg Facility (former Tecumseh Facility) at 1604 Michigan Street in New Holstein. In preparation for this transaction, the City is interested in learning more about our potential liability moving forward. We have drafted a series of questions that we would like addressed. Time is somewhat limited as we anticipate taking title in early December 2017.

Attached with this submittal is a recently completed Phase I report to provide background information.

Please let us know, as soon as possible, if the timing of our request cannot be met by our deadline of December 1.

Our questions are listed below:

1. No additional investigation was required as part of the Phase II ESA work New Holstein directed in 2013. Are we safe to assume with the closure of ERP case (#02-08-000332) and LUST case (#03-08-001071), no new sites will be opened as a result of the 2013 Phase II sampling?
2. The closure of the sites referenced in Question #1 was based on industrial soil standards. We assume the future redevelopment of the site will be a non-industrial use. In that event, how does that change the closure status of the cases? Will additional soil, groundwater, or vapor sampling be needed?
3. Regarding the vapor intrusion sampling performed, is the City safe to assume the vapor issue has been adequately defined and no additional sampling will be necessary? The City also has a concern regarding the need for vapor sampling related to previously closed cases at the former Tecumseh property. Is the City safe to assume no additional sampling will be needed related to the previously closed cases?
4. The open ERP case (#02-08-363333) addressing chromium impacts was just granted a long-term monitoring plan, which calls for annual monitoring.
 - a. Is the WDNR comfortable that the degree and extent of contamination is defined?
 - b. Given the annual monitoring schedule, when would be the earliest case closure could be granted – after two rounds, 4 rounds?

5. It is our understanding that the ERP case referenced in Question #4 is being addressed by TRC on behalf of Tecumseh through a private agreement between the parties. If the City takes title and pursues grant funding to facilitate redevelopment, will the agreement between Tecumseh and TRC present an obstacle to obtain funding given there would still be a viable party available to address the impacts. Furthermore, given the current ownership, will the city have any difficulties proving there is no viable entity available when pursuing funds?
6. Does the open PCB case identified as the Hayton PCB Remediation (#02-08-281506) have any impacts at the 1604 Michigan Avenue property?
7. What if the use of the site in the future is mixed use. Can it have industrial use on it?
8. What is Tecumseh's role after the City takes title to the property. Are they still in the picture? If so, what is their role.

Thank for your help in addressing our questions. If you have any questions, please contact me at 920-

Sincerely,

Cassandra Langenfeld
City Administrator/Clerk-Treasurer

Technical Assistance, Environmental Liability Clarification or Post-Closure Modification Request

Form 4400-237 (R 9/15)

Page 1 of 8

Notice: Use this form to request a **written response (on agency letterhead)** from the Department of Natural Resources (DNR) regarding technical assistance, a post-closure change to a site, a specialized agreement or liability clarification for Property with known or suspected environmental contamination. A fee will be required as is authorized by s. 292.55, Wis. Stats., and NR 749, Wis. Adm. Code., unless noted in the instructions below. Personal information collected will be used for administrative purposes and may be provided to requesters to the extent required by Wisconsin's Open Records law [ss. 19.31 - 19.39, Wis. Stats.].

Definitions

"Property" refers to the subject Property that is perceived to have been or has been impacted by the discharge of hazardous substances.

"Liability Clarification" refers to a written determination by the Department provided in response to a request made on this form. The response clarifies whether a person is or may become liable for the environmental contamination of a Property, as provided in s. 292.55, Wis. Stats.

"Technical Assistance" refers to the Department's assistance or comments on the planning and implementation of an environmental investigation or environmental cleanup on a Property in response to a request made on this form as provided in s. 292.55, Wis. Stats.

"Post-closure modification" refers to changes to Property boundaries and/or continuing obligations for Properties or sites that received closure letters for which continuing obligations have been applied or where contamination remains. Many, but not all, of these sites are included on the GIS Registry layer of RR Sites Map to provide public notice of residual contamination and continuing obligations.

Select the Correct Form

This form should be used to request the following from the DNR:

- Technical Assistance
- Liability Clarification
- Post-Closure Modifications
- Specialized Agreements (tax cancellation, negotiated agreements, etc.)

Do not use this form if one of the following applies:

- Request for an **off-site liability exemption or clarification** for Property that has been or is perceived to be contaminated by one or more hazardous substances that originated on another Property containing the source of the contamination. Use DNR's Off-Site Liability Exemption and Liability Clarification Application Form 4400-201.
- Submittal of an Environmental Assessment for the **Lender Liability Exemption**, s 292.21, Wis. Stats., **if no response or review by DNR is requested**. Use the Lender Liability Exemption Environmental Assessment Tracking Form 4400-196.
- Request for an **exemption to develop on a historic fill site** or licensed landfill. Use DNR's Form 4400-226 or 4400-226A.
- **Request for closure** for Property where the investigation and cleanup actions are completed. Use DNR's Case Closure - GIS Registry Form 4400-202.

All forms, publications and additional information are available on the internet at: dnr.wi.gov/topic/Brownfields/Pubs.html.

Instructions

1. Complete sections 1, 2, 6 and 7 for all requests. Be sure to provide adequate and complete information.
2. Select the type of assistance requested: Section 3 for technical assistance or post-closure modifications, Section 4 for a written determination or clarification of environmental liabilities; or Section 5 for a specialized agreement.
3. Include the fee payment that is listed in Section 3, 4, or 5, unless you are a "Voluntary Party" enrolled in the Voluntary Party Liability Exemption Program **and** the questions in Section 2 direct otherwise. Information on to whom and where to send the fee is found in Section 8 of this form.
4. Send the completed request, supporting materials and the fee to the appropriate DNR regional office where the Property is located. See the map on the last page of this form. A paper copy of the signed form and all reports and supporting materials shall be sent with an electronic copy of the form and supporting materials on a compact disk. For electronic document submittal requirements see: <http://dnr.wi.gov/files/PDF/pubs/rr/RR690.pdf>

The time required for DNR's determination varies depending on the complexity of the site, and the clarity and completeness of the request and supporting documentation.
