Subject: RE: U&C Request

Gina:

I am not sure how to do this. I am having a hard time finding other excavators in the area that are interested. I can get some pricing from outside of the area but I don't think I am going to have any luck finding three landfills.

Sorry, I am not used to this requirement. Would you mind giving me a call when you have a minute. It suddenly seems like summer is over and I need to get going!

Thanks for all of your help with this.

Subject: U&C Request

Robyn,

Thanks for the U&C Pecfa request for Don Smith Sales. Because this site is 900 cubic yards, the excavation part of this would need to bid out as a variance, not Usual & Customary. The soils lab data would still be under U&C, however, consultant time would be considered under a variance per hour (it is under the hourly rate). For the costs associated with the soil excavation and landfilling (landfill costs, hauling, excavating), we will need three bids.

Email or call with any questions.

Thanks.

We are committed to service excellence.
