Tom,

Just following up with regard to the letter dated May 19, 2014 sent to you. There is no direct funding for investigating and remediating a property currently owned by a private entity. The dry cleaner fund (DERF) is no longer accepting responsible parties. However, if you do not hire a consult and prepare a work plan within 60 days of the date of the letter, the DNR will request you come to a meeting where you will be required to provide evidence of the inability to pay for the investigation and remediation of the chlorinated solvents on the property. If it is determined that there is an inability to pay, the DNR will bring in a zone contractor at some point to conduct the investigation.

Bob
