Wauwatosa, WI 53213

**Subject: Environmental Investigation Sampling Results**  
**BRRTS#: 02-30-287150**

02-41-262047

Dear City of Wauwatosa Community Development Authority:

In accordance with Wisconsin Department of Natural Resources (WDNR) regulation NR 716.14 and the access agreement dated January 19, 2017, Environmental Forensic Investigations, Inc. (EnviroForensics) is providing the results of environmental samples collected from the City of Wauwatosa property located at 2578 North Wauwatosa Avenue in Wauwatosa, Wisconsin on February 2, 2017.

### Results

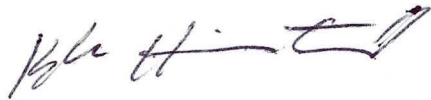

Eleven soil borings were advanced and 29 soil samples were collected from your property and analyzed for volatile organic compounds (VOCs). The sample locations are depicted on **Figure 1**. As shown in **Table 1**, multiple soil samples exceeded the WDNR's Residual Contaminant Levels for tetrachloroethene, trichloroethene, and cis-1,2,-Dichloroethene. The laboratory reports that relate to the soil samples are attached.

Select soil samples were analyzed for Toxicity characteristic leaching procedure (TCLP) and the results are present in **Table 2**. One sample, collected at DP-14 from 4-6 feet below ground surface, exceeded the WDNR's TCLP limit of 700 for tetrachloroethene.

Upon conclusion of the soil boring activities, all boreholes were abandoned with hydrated bentonite and the property was restored to substantially the same condition as it existed prior to access. Before and after pictures of the work site are also attached as requested per the access agreement.

If you have any questions or concerns, please contact us at 262-510-0612 or by email at [rhoverman@enviroforensics.com](mailto:rhoverman@enviroforensics.com). We greatly appreciate your assistance with this matter.

Sincerely,  
**Environmental Forensic Investigations, Inc.**

**Notes:**

<sup>1</sup> Residual Contaminant Levels calculated according to the procedures described in WDNR Publication RR-890  
All concentrations reported in micrograms per kilogram (µg/kg)

**Bolded** values are above Laboratory Detection Limits

**Bolded and Orange Shaded** value indicates an exceedance of the Industrial Residual Contaminant Level

**Bolded and Green Shaded** value indicates an exceedance of the Non-Industrial Residual Contaminant Level

**Bolded and Blue Shaded** value indicates an exceedance of the Soil to Groundwater Residual Contaminant Level

Samples analyzed using EPA SW-846 Method 8260

J = Estimated concentration between the Method Detection Limit and the Reporting Limit

RCL = Residual Contaminant Level
