Hello Ron,

The DNR has reviewed the information you provided by email on January 28, 2020. Your email was in response to the DNR's request for PFAS sampling at the Vogue Cleaners site. Based on the information you provided, the DNR will not be requiring you to sample for PFAS compounds at the Vogue Cleaners site.

The site remains an open environmental repair case, and you will still need to complete the site investigation.

We are committed to service excellence.
