---

Good afternoon,

The top of another UST was encountered at the STH 116 Winneconne construction site, on the 105 E. Main St. property. The tank is approximately 6 ft. long & 6 ft. in diameter, and contains approximately 1 foot of liquid/sludge with a petroleum odor. The UST is at 146+49, 30' RT Main St., very near the location of the last UST (see attached figure). The WisDOT needs to remove it for reconstruction. TRC and its contractor, SGS, will perform this work either Wednesday (tomorrow) or Thursday.

Thank you,

Alia

Alia Schroeder
