---

Hello Barb,

Here are my draft completions of the 4400-286 for Mike Schradle and for the Village of Turtle Lake. Also, I can provide two sets of coordinates. The center of the area where the tanks were is 45.39873801550355, -92.14593133728823. However that is different from the map of soil contamination. The center of that is where the pumps were, and that location is 45.39866833101936, -92.14595078330203.

Joe
