Good Morning Rick,

Attached is the proposal/cost estimate to complete the scope below. Costs have been modified from the previous submittal to allow extra time for travel and to locate and open the wells beneath the snow. Additionally, purge water disposal costs have been increased to address the water being disposed of the day it is generated as there is no place to store the drum. Pick up will be scheduled for the day of sampling.

If you have any questions, do not hesitate to contact me. Thank you for the opportunity to submit costs to complete the work.

Upon your approval, the access agreement will be submitted and sampling scheduled.

Have a great day,

Beth

Yes please. Put in same effort as last time. Let me know if he does not respond and I will try too.

At some point the DNR will have to abandon that well.

Rick

Sounds good Rick,

Do you also want us to try again to contact Mr. Burriss for access?

Thank you
