Subject: Fwd: RE: DNR Response to Questions Urgent Care
Attachments: Urgent Care Map showing Location.pdf; Project Contacts.pdf

Paul

Thank you for your quick response.

attached is the revised contact page and the map of the area of the project.

Approximately 200 cubic yards will be reused as backfill adjacent to the exterior foundation walls within the footprint of the original excavation.

Soils will not be relocated to a different area of the site.

As you are aware, the receiving site has been approved to receive these types of soils on numerous projects.

Please let us know if there are additional questions or comments.

Rick
