Patrick, the excavation/disposal project was completed on 4/25/17. Ron from our office had left you message that we were likely going to go over on the tonnage as we were able to remove highly contaminated soils directly beneath the former UST located in the center of the excavation area. I have received the tonnage report from the landfill and we ended up with a total of 101.44 tons which was 11.44 tons over the proposed amount.

We are requesting a change order for the additional tonnage as follows:

Excavation of C-Soil	11.44 tons x \$20/ton	= \$228.80
Hauling of C-Soil	11.44 tons x \$14/ton	= \$160.16
Disposal of C-Soil	11.44 tons x \$34/ton	= \$388.96
Fill Material	11.44 tons x \$14/ton	= \$160.16
Backfill/Compact	11.44 tons x \$9/ton	= \$102.96
Consulting	11.44 tons x \$4.94/ton	= \$ 56.51

**Total = \$1,097.55**

If you could please review and approve these additional costs we can proceed with submitting the PECFA reimbursement.

If you have any questions please call or email.  
Thanks,

**Jason Powell**

DATE: April 24, 2017

FILE REF: 03-14-563925

TO: Patrick Dowd, Wisconsin DNR

FROM: Ron Anderson, METCO

SUBJECT: Phone Log

I received a voicemail from Ron Anderson while he was conducting the excavation at the Maron Property. He stated that METCO may exceed the estimated tonnage of excavated contaminated soil that was approved in their latest PECFA cost approval request, and requested a change order to that affect. I would have agreed had I been in the office that day.
