Janet:

I think I just was not very clear about the PVOC+naph QA/QC in the text. Long day here as well! It took me longer to muck through this than it should have.

Robyn

Long day. Was getting the EDB at Rock Wool confused with Rath It has been a long long day.

So see if I have it right:

The cover letter says:

The analytical costs are for full VOCs from the monitoring wells and QA/QC for the first round and PVOC + naphthalene during the second round, the water supply well will be analyzed for VOCs both rounds. We will sample for PAHs from the monitoring wells (3 total) during the first round.

The U&C:

WATER	W4	PVOC + Naphthalene	SAMPLE \$ 31.26	4	\$ 1 25.04
WATER	W5	VOC	SAMPLE \$ 74.09	6	\$ 4 44.54
WATER	W6	PAH	SAMPLE \$ 75.17	3	\$ 2 25.51

So I get

Round 1: 3 wells + the PW = 4 VOC samples

VOC QAQC (*is this right?*) yes

round 2 PW for VOCs

total **6 VOCs**

Round 2: **3 wells PAH** (total)

3 wells PVOC + Naph

PVOV + Naph QAQC

Total **4 PVOC**

We are committed to service excellence.
